

MOHIDEEN AFZAL S

Aspiring IT Professional | Machine Learning & Data-Driven Solutions

+91 6382378863 | mohideenafzal.ug.23.it@francisxavier.ac.in | linkedin.com/in/mohideen-afzal-s | Tirunelveli, India

PROFESSIONAL SUMMARY

Final-year Information Technology undergraduate (CGPA 8.44/10) with hands-on experience in Machine Learning, DBMS, and data visualization. Skilled in building ML-based predictive models and interactive dashboards, with a strong foundation in Python, Java, and SQL. Seeking an entry-level role to apply problem-solving skills and technical expertise toward delivering data-driven solutions.

EDUCATION

B.Tech, Information Technology 2023 – 2027

Francis Xavier Engineering College, Tirunelveli | CGPA: 8.44/10

Higher Secondary Education (CBSE) 2023

Vedic Vidyashram CBSE School, Tirunelveli | Percentage: 74%

SSLC 2020

Percentage: 83%

TECHNICAL SKILLS

- Programming Languages: C, Java, Python
- Databases: DBMS, MySQL
- Machine Learning: Model building, training & prediction, data preprocessing
- Web Technologies: HTML, CSS
- Tools & Platforms: Power BI, Linux

PROJECTS

Herbal Medicine – Leaf Recognition using ML

- Designed and trained an image-classification model to identify medicinal plant species from leaf images, using preprocessing techniques such as resizing, noise removal, and feature extraction to improve recognition accuracy.
- Built a reference database linking each identified species to its medicinal uses, enabling the system to return relevant herbal information alongside the prediction.
- Evaluated model performance across multiple plant classes and tuned parameters to reduce misclassification between visually similar leaves.

Soil Prediction for Medicinal Plants using ML

- Collected and cleaned plant–soil datasets, then engineered features (soil pH, moisture, nutrient composition) to train a supervised prediction model.
- Built a classification model that recommends suitable soil types for specific medicinal plants, helping growers select optimal planting conditions.
- Validated model outputs against known soil–plant compatibility data to improve prediction reliability.

INTERNSHIP EXPERIENCE

Data Analytics Intern – Infosmite June 2025

Designed interactive Power BI dashboards to analyze and visualize complex datasets, translating raw data into clear, actionable insights through dynamic charts and user-friendly reporting.

CERTIFICATIONS

- The Joy of Computing Using Python — NPTEL (IIT Madras), Elite, 64%
- Introduction to Industry 4.0 and Industrial Internet of Things — NPTEL (IIT Kharagpur), Elite, 73%
- Astral Innovative Project Showcase — Participation

KEY STRENGTHS

- Problem-solving and analytical thinking
- Quick learner with strong adaptability
- Logical reasoning and attention to detail

LANGUAGES

Tamil, English
